生物多樣性政策

Biodiversity Policy

Biodiversity Policy

生物多樣性政策

1. Purpose and Direction 目的及方向

This Biodiversity Policy sets out the Group's approach to protecting and promoting biodiversity across all our operations and supply chain. We strive to minimise our impact on natural habitats, species and ecosystems, and work towards contributing positively to biodiversity conservation in the regions where we operate.

本《生物多樣性政策》說明本集團在所有營運及供應鏈中保護及推動生物多樣性的方針。我們力求最小化我們對自然棲息地、物種及生態系統的影響，並致力於為我們營運所在地區的生物多樣性保護作出積極貢獻。

The Policy applies to all our facilities and operations, including construction, electronics manufacturing, lithium battery recycling and corporate offices in Hong Kong and other jurisdictions where we operate.

本政策適用於本集團的所有設施及營運，包括香港及其他營運地區的建築、電子產品製造、鋰電池回收及企業辦公室。

Our Biodiversity Focus 本集團的生物多樣性重點：

- Strive to minimise negative impacts on biodiversity from our operations and supply chain
力求最小化我們的營運及供應鏈對生物多樣性的負面影響
- Work towards continuous improvement of our biodiversity performance
致力於持續改進我們的生物多樣性績效
- Set and review biodiversity-related targets and objectives annually
每年制定及檢討生物多樣性相關的目標及目的
- Engage suppliers to adopt equivalent biodiversity protection practices
促使供應商採納相應的生物多樣性保護實務
- Support conservation initiatives and ecosystem restoration where feasible
在可行的情況下支持保護計劃及生態系統恢復

- Comply with Hong Kong environmental and wildlife protection legislation including the Wildlife Protection Ordinance (Cap. 170) and Environmental Impact Assessment Ordinance (Cap. 499)

遵守香港環保及野生動物保護法例，包括《野生動物保護條例》（第 170 章）及《環境影響評估條例》（第 499 章）

2. Governance and Responsibility 管治及責任

Board Oversight 董事會監督：

- The Board reviews biodiversity-related risks, performance and conservation initiatives at least annually

董事會至少每年檢討一次生物多樣性相關的風險、績效及保護計劃

- The Board approves the Biodiversity Policy and material biodiversity-related investments

董事會批准生物多樣性政策及重大生物多樣性相關投資

Management Responsibility 管理層責任：

- A dedicated Environmental Manager oversees biodiversity initiatives across all business units

任命專門的環境經理負責監督所有業務單位的生物多樣性計劃

- Facility managers are responsible for biodiversity management within their areas of responsibility

設施經理應對其職責範圍內的生物多樣性管理負責

3. Scope: Own Operations 範圍：自身營運

Biodiversity Management in Our Operations 我們營運中的生物多樣性管理：

We are committed to striving towards the following biodiversity improvements:

我們致力於力求實現以下生物多樣性改進：

Habitat Protection and Restoration 棲息地保護及恢復：

- Strive to protect and restore natural habitats affected by our operations

力求保護及恢復受我們營運影響的自然棲息地

- **Target: Identify biodiversity-sensitive areas near our facilities and work towards implementing habitat protection measures**
目標：識別我們設施附近的生物多樣性敏感區域，並力求實施棲息地保護措施
- **Support ecosystem restoration projects including native tree planting and wetland conservation where applicable**
支持生態系統恢復項目，包括本地樹木種植及濕地保護（如適用）
- **Avoid development in ecologically sensitive areas and conduct environmental impact assessments prior to facility expansion**
避免在生態敏感區域進行開發，並在設施擴展前進行環境影響評估

Species Protection and Monitoring 物種保護及監察：

- **Work towards reducing impacts on protected species within and around our operational areas**
致力於減少對我們營運區域內及周邊受保護物種的影響
- **Conduct biodiversity surveys and monitoring to assess impacts on local wildlife**
進行生物多樣性調查及監察以評估對當地野生動物的影響
- **Target: Establish baseline biodiversity data for major facilities within 2 years**
目標：在 2 年內為主要設施建立基準生物多樣性數據
- **Implement measures to protect migratory species and sensitive habitats during operational activities**
實施措施以在營運活動中保護遷徙物種及敏感棲息地

Pollution Control for Biodiversity 污染控制以保護生物多樣性：

- **Strive to minimise pollution that could harm wildlife and ecosystems**
力求最小化可能傷害野生動物及生態系統的污染
- **Implement waste management, water quality and air quality controls to reduce impacts on local biodiversity**
實施廢棄物管理、水質及空氣質素控制以減少對當地生物多樣性的影響
- **Target: Work towards reducing pollutants that affect aquatic and terrestrial ecosystems by 15% within 3 years**
目標：在 3 年內力求減少影響水生及陸生生態系統的污染物 15%
- **Prevent accidental spills and releases that could contaminate natural habitats**
防止可能污染自然棲息地的意外洩漏及排放

Green Space Development 綠色空間開發：

- Work towards increasing green space and vegetation in and around our facilities 致力於在我們設施內及周邊增加綠色空間及植被
- Implement landscaping practices that promote local biodiversity 實施有利於當地生物多樣性的景觀設計實務
- Target: Increase native vegetation cover by 10–20% across suitable facilities within 5 years 目標：在 5 年內在適合的設施中增加本地植被覆蓋率 10–20%
- Create wildlife corridors and refuge areas to support local species movement and survival 創造野生動物走廊及庇護所以支持當地物種的流動及生存

Supply Chain and Procurement 供應鏈及採購：

- Strive to source materials from suppliers who demonstrate responsible management of biodiversity impacts
力求從示範對生物多樣性影響負責任管理的供應商採購物料
- Prioritise suppliers who adopt sustainable forestry, fisheries and agricultural practices
優先選擇採納可持續林業、漁業及農業實務的供應商
- Target: Review and engage with 80% of key suppliers on biodiversity-related practices within 3 years
目標：在 3 年內與 80% 的主要供應商審查及討論生物多樣性相關實務

4. Scope: Supplier Engagement 範圍：供應商參與

Supplier Biodiversity Standards 供應商生物多樣性標準：

We expect suppliers to 我們期望供應商：

- Adopt equivalent biodiversity protection practices aligned with this Policy
採納與本政策相符的相應生物多樣性保護實務
- Strive to minimise negative impacts on habitats, species and ecosystems in their operations
力求最小化其營運對棲息地、物種及生態系統的負面影響
- Work towards complying with local environmental and wildlife protection laws
致力於遵守當地環保及野生動物保護法律
- Disclose biodiversity-related risks and impacts relevant to their services or products
披露與其服務或產品相關的生物多樣性相關風險及影響
- Work with their own sub-contractors and service providers to promote biodiversity responsibility

與其自身分包商及服務提供者合作推動生物多樣性責任

Supplier Engagement Actions 供應商參與行動：

- Include biodiversity-related criteria in supplier selection and performance evaluation
在供應商遴選及績效評估中納入生物多樣性相關準則
- Provide guidance to suppliers on biodiversity best practices and available resources
向供應商提供關於生物多樣性最佳實務及可用資源的指導
- Conduct periodic reviews of supplier biodiversity performance and practices
定期檢討供應商的生物多樣性績效及實務
- Support suppliers in identifying and implementing biodiversity improvement initiatives
支持供應商識別及實施生物多樣性改進計劃
- Communicate biodiversity requirements through contracts and supplier agreements
透過合約及供應商協議傳達生物多樣性要求
- Encourage suppliers to obtain relevant environmental certifications
鼓勵供應商取得相關環保認證

5. Setting Biodiversity Targets and Objectives

制定生物多樣性目標及目的

Long-Term Targets (5–10 years) 長期目標（5–10 年）：

- Achieve net-positive biodiversity impact at priority operational sites
在優先營運地點實現淨正生物多樣性影響
- Increase native vegetation cover by 20% across our facilities portfolio
在本集團設施投資組合中增加本地植被覆蓋率 20%
- Support conservation of at least one endangered or critically important species habitat
支持至少一個瀕危或極為重要物種棲息地的保護
- Establish biodiversity performance as a standard metric across all business units
將生物多樣性績效建立為所有業務單位的標準指標

Target Review and Adjustment 目標檢討及調整：

- Review biodiversity targets annually and adjust based on monitoring data and stakeholder feedback 每年檢討生物多樣性目標並根據監察數據及持份者反饋進行調整
- Report progress against targets in our annual ESG or Sustainability Report
在我們的年度 ESG 或可持續發展報告中報告目標進度

6. Biodiversity Management Practices

生物多樣性管理實務

Compliance and Monitoring 遵守及監察：

- Maintain compliance with Hong Kong and international wildlife and habitat protection laws
維持遵守香港及國際野生動物及棲息地保護法律
- Conduct biodiversity assessments and environmental impact studies prior to operational changes
在營運變化前進行生物多樣性評估及環境影響研究
- Monitor biodiversity indicators and track changes in local flora and fauna populations
監察生物多樣性指標及追蹤當地動植物群落的變化
- Document biodiversity data and maintain records of conservation initiatives
記錄生物多樣性數據並保留保護計劃的記錄

Environmental Impact Assessment 環境影響評估：

- Conduct environmental impact assessments for new facilities, expansions and major operational changes
為新設施、擴展及主要營運變化進行環境影響評估
- Identify potential impacts on protected species, habitats and critical ecosystems
識別對受保護物種、棲息地及關鍵生態系統的潛在影響
- Implement mitigation measures and alternative designs to minimise biodiversity impacts
實施減緩措施及替代設計以最小化生物多樣性影響
- Engage with environmental agencies and conservation organisations for guidance
與環保機構及保護組織接洽以獲取指導

Incident Response 事件應對：

- Establish procedures for responding to accidental spills, releases or other events that may harm biodiversity
建立應對可能傷害生物多樣性的意外洩漏、排放或其他事件的程序
- Investigate incidents and implement corrective actions to prevent recurrence
調查事件並實施糾正措施以防止重複發生
- Report significant biodiversity incidents to relevant authorities as required by law
根據法律要求將重大生物多樣性事件報告至相關當局

7. Employee Engagement and Community Partnership 員工參與及社區夥伴關係

Employee Involvement 員工參與：

- Provide training to employees on biodiversity awareness and protection responsibilities
向員工提供生物多樣性意識及保護責任的培訓
- Support employee participation in conservation and habitat restoration activities
支持員工參與保護及棲息地恢復活動
- Encourage suggestions and contributions to biodiversity improvement initiatives
鼓勵對生物多樣性改進計劃的建議及貢獻
- Recognise and reward employee efforts in biodiversity protection 認
可並獎勵員工在生物多樣性保護中的努力

Community and Stakeholder Engagement 社區及持份者參與：

- Work towards partnering with conservation organisations and local communities
致力於與保護組織及當地社區建立夥伴關係
- Support biodiversity education and awareness programs in the communities where we operate
支持我們營運所在地區的生物多樣性教育及意識計劃
- Collaborate on habitat restoration and species protection projects
在棲息地恢復及物種保護項目上進行協作
- Engage with regulators and environmental agencies on biodiversity matters
與監管機構及環保機構就生物多樣性事宜進行溝通

8. Biodiversity Reporting and Transparency

生物多樣性報告及透明度

Monitoring and Reporting 監察及報告：

- Annual disclosure of biodiversity data in the Group's ESG or Sustainability Report, including:

在本集團年度 ESG 或可持續發展報告中年度披露生物多樣性數據，包括：

- Baseline biodiversity assessments and survey results
基準生物多樣性評估及調查結果
- Habitat protection and restoration activities undertaken
已進行的棲息地保護及恢復活動
- Species and ecosystem impacts from operations
營運對物種及生態系統的影響
- Progress towards biodiversity targets
朝向生物多樣性目標的進度
- Conservation partnerships and initiatives supported
所支持的保護夥伴關係及計劃

External Communication 外部溝通：

- Publish biodiversity performance and initiatives in public-facing ESG reporting
在公開 ESG 報告中發佈生物多樣性績效及計劃
- Engage with stakeholders including employees, customers, suppliers, regulators and conservation organisations
與包括員工、客戶、供應商、監管機構及保護組織在內的持份者進行溝通
- Benchmark our biodiversity management practices against industry peers and best practices
將我們的生物多樣性管理實務與行業同行及最佳實務進行基準對標
- Share learnings and success stories on biodiversity conservation
分享關於生物多樣性保護的經驗及成功故事

9. Policy Review and Continuous Improvement

政策檢討及持續改進

This Biodiversity Policy will be reviewed and updated annually to reflect:

本生物多樣性政策將每年檢討及更新，以反映：

- Changes in operational activities and potential biodiversity impacts
營運活動及對生物多樣性潛在影響的變化
- New conservation technologies and biodiversity management best practices
新的保護技術及生物多樣性管理最佳實務
- Updated biodiversity targets aligned with international conservation goals
與國際保護目標相符的更新生物多樣性目標
- Feedback from employees, suppliers, communities and conservation partners
來自員工、供應商、社區及保護夥伴的反饋
- Changes in environmental legislation and wildlife protection requirements
環保法例及野生動物保護要求的變化
